

UNIQUE

INNOVATIVE

SAFE

SINCE 1965 MACS ENGINEERING has continuously provided safe, robust, reliable and innovative solutions for our customers. We work closely with independent engineers, research institutes and other like minded companies to ensure our products are always cutting edge, highly effective and, importantly, safe.

MACS DESIGNED SAFE WORK ACCESS PLATFORMS AND EQUIPMENT ACCESS

At MACS, we know that safety is critical. Our safe work access platforms are a cut above the rest, meeting both our clients' stringent demands as well as Australian standards to ensure the highest level of safety and performance.

- Proven solutions of a large range of safe access options specifically designed for most mining and earthmoving equipment
- Ergonomically designed, built and certified for OEM equipment and for specific applications or multiple use
- Designed and engineered to comply with Australian Standards including AS 3990 & AS 1657
- Enhanced maintenance and equipment productivity by providing efficient and safe access
- Robust construction ensuring longevity
- Mobile unit incorporates wheel raise lever action for easy, safe relocation and storage of unit

Part No: APCATD10T-A
Description: CAT D10 T Over Track Access Platform

Light Vehicle Wash Down Ramp
