

## MACS Engineering - Setting The Standard In Light Vehicle Safety & Reliability

MACS has a comprehensive range of complete turnkey fitouts for the construction & mining industries, for most makes & models of vehicles operating on sites in Australia, including **Toyota, Ford, Nissan, Mazda, Isuzu, Mitsubishi, Holden, Ssangyong, Great Wall** and **Mahindra**.

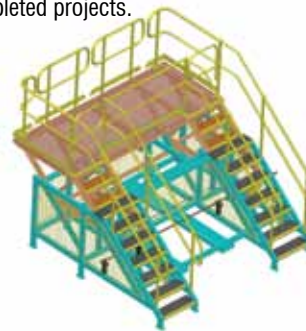

## NEW PRODUCT NEWS: MACS Maintenance Platforms

MACS reputation for innovative maintenance platforms grows with two recently completed projects.

### QR National Callemondah

- Provides safe access on to locomotive roofs for maintenance
- Operation controlled by PLC
- Series of pneumatically operated sliding decks, gates & barriers accommodate multiple locomotive classes and profiles

### AngloAmerican Foxleigh Mine Komatsu Dual Height Platform

- Adjustable dual height platform
- Provides access to multiple areas of truck for maintenance
- Reduces the number of platforms required in the workshop
- Designs available for multiple dump truck classes

All MACS Maintenance Platforms are designed with operators & maintenance planners. Light weight and robust construction to perform in harsh operating environments. Built to Australian Standards.

## MACS Engineering is Expanding

### MACS Engineering opens new facility in Paget

MACS is pleased to announce that its new purpose built premises in Paget opened on 1st November. The 1,568m<sup>2</sup> workshop facility allows MACS to further expand its Engineering and Truck Divisions which now operate from this new location.

### MACS Engineering opens new facility in Brisbane

MACS is also pleased to announce that its new Brisbane branch opened on 3rd October. Located on Brisbane's north side the 1,000m<sup>2</sup> workshop / 1,750 m<sup>2</sup> hardstand facility has excellent access to the Bruce Highway & Gateway Motorway and our SEQ Customer and Dealership network.

## NEW PRODUCT NEWS: MACS Emergency Response Vehicles

MACS continues to expand its capability in emergency response vehicles with the recent completion of an ERT for AngloAmerican's Foxleigh Mine. The unit is based on an Isuzu F550 Crew cab, and the comprehensive fitout to Foxleigh specifications included resuscitation equipment, and safety systems for mine site operations.

## Merry Christmas and Happy New year from MACS Engineering

The team at MACS Engineering would like to wish everyone a happy and safe break over the Christmas / New Year period, and looks forward to building our business relationships in 2012. Thank you for your support.
